How it started.....

MY NANA & GRANDAD

The inspiration for this business came from my grandad, who was always entrepreneurial. After we lost both my grandparents, I decided to honor them by using what they left me to create something they'd be proud of. Our beautiful trike is named after my nan, though she would have probably disapproved since she hated her name—but we loved her dearly, and so “Trixie the Trike” was born in her honor. Grandad would have thought it was great and probably had a good laugh!

Like many suppliers, my business has a personal story. We survived COVID (just about!) and will keep going as long as my couples want us, enjoying every moment.

We've been serving ice cream for nearly 10 years and have loved every event we've had the privilege to be part of. We pride ourselves on using locally sourced ice cream and will continue to do so. With my background as a Marketing Manager, I pour my heart into this little business, constantly working to improve it. Being part of couples' special moments in the wedding industry is an absolute honor. I'm always brainstorming new ideas and ways to decorate the trike to make sure couples fall in love with her. Stay tuned to see what we come up with next!
